

Elementary And Secondary School Emergency Relief Fund (ESSER FUND)**Section: Narratives - Program Description****INTRODUCTION**

Under the Elementary and Secondary School Emergency Relief Fund (ESSER Fund), the Pennsylvania Department of Education (PDE) awards grants to local educational agencies (LEAs), to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the state. LEAs must provide equitable services to students and teachers in nonpublic schools as required under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).

Please note: ESSER funds, under any part of 18003, **cannot** be used for: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the SEA or LEAs or 2) expenditures related to state or local teacher or faculty unions or associations. CARES Act funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.

***ESSER funds are not Title I funds and as such, are not subject to Title I rules.**

Please explain how the LEA will determine its most important educational needs as a result of COVID-19. (3000 characters max)

The LEA will evaluate the success of on-line learning tools and instruction on an ongoing basis using local surveys and needs assessments. Parent, student and teacher input will be vital in determining the best instructional approach that meet various needs. In addition, ongoing communication with the technology department will provide input to LEA technology infrastructure that needs to be updated.

Please explain the LEA's proposed timeline for providing services and assistance to students and staff in both public and nonpublic schools. (3000 characters max)

Out of necessity, the LEA timeline is immediate with making continuous changes for improvement. When the 2019-2020 school year comes to a close, teachers, administrators, the technology department, and community members will collect data on the success of the program and needed changes to provide instruction in a more meaningful way.

Please explain the extent to which the LEA intends to use ESSER funds to promote remote learning. (3000 characters max)

The LEA intends to use ESSER funds to purchase Chromebooks for all students in the district. Additionally, funds will be used to purchase hot-spots and on-line curriculum sources for students that need a full-time virtual instruction model

Please describe how the LEA intends to assess and address student learning gaps resulting from the disruption in educational services. (3000 characters max)

Student learning data will be collected using local assessments, district learning software, and broader

Elementary And Secondary School Emergency Relief Fund (ESSER FUND)

reading evaluations. This data will be reviewed by the classroom teachers and students will be provided with individual support to support their learning. Initially, this will take place in a remote learning environment and will move to an in-person support program when the LEA is able to open to in-person instruction.

Please describe the LEA(s) proposed procedures for evaluating local COVID-19 impacts in relation to education programming and delivery. (3000 characters max)

Areas of emphasis should include:

- Documenting learning loss associated with extended school closure;
- Outlining the development of local continuity of education plans over the course of emergency response efforts; and
- Detailing supports for vulnerable student populations and families.

The LEA will monitor student success very closely during COVID-19 remote learning and will develop ongoing plans to support students both remotely as well as in-person when able. Teachers will use student grades on local assessments to develop a baseline for each child. Frequent formative assessments will be given to determine student learning. Students that demonstrate significant learning loss will be offered instructional support. Local continuity of education plans will be created to provide community flexibility with remote learning, in-person learning, and hybrid learning options. Options will be developed using community need, the local community spread of COVID-19, and governmental orders for closure as determining factors for the return to school. Vulnerable student populations will work directly with a case-worker to provide specific instructional/learning support which will include the use of instructional aides to provide small group or one-to-one instruction, alternate assessments, and extended time. Teachers must continue to follow all IEP and 504 plans during as like any other time.

Please describe the LEA core set of strategies that will be used to guide local investment of CARES funding, associated with short-range (i.e., remainder of the 2019-20 school year) and long-range (2020-21 and 2021-22 school years) timelines. (3000 characters max)

These strategies may entail the establishment, scale-up, refinement, or evaluation of remote learning, as well as strategies for school-based teaching and learning responsive to conditions related to the pandemic. LEAs will be asked to outline how limited, one-time CARES funding may support these initiatives and how CARES funding might interact with other federal funding, including enhanced Title IV flexibility, to ensure strategic and sustainable use of one-time funds.

The short-range goal is to provide instructional materials for students to access their education while on full-remote learning including the purchase of Chromebooks and local hot-spots for connectivity. The long-range goal is to provide the cleaning supplies, masks, face shields, thermometers, barriers and training to improve the health of the learning environment of the district. Funds will also be used to expand full-remote learning for teachers and students.

Please describe specific plans, measures, and longer-term evaluative strategies concerning student learning gaps - as well as opportunity to learn factors - stemming from COVID-19. (3000 characters max)

Elementary And Secondary School Emergency Relief Fund (ESSER FUND)

The long-range plans include using instructional aides and support teachers to provide small group and one-on-one instruction for vulnerable students. This includes in-person instruction for identified students during an otherwise full-remote learning environment. All IEP and 504 goals will be monitored and evaluated to ensure student learning. Extra learning time will be provided for students who demonstrate a need.
